Is The Citizen Worth a Dollar? Our agents are asked this question.

Some newspapers are cheaper—why is The Citizen put at a dollar?

In the first place because it costs a dollar. We use good paper, good type, put in far better reading matter, and more of it, than other papers of 8 pages, and refuse bad advertisements. Going on this basis we have lost money every year. Neighbors we can't give you what we have not got! "Honest Injun," The Citizen costs a dollar and more for every subscriber.

In the next place a local paper always costs more than a city paper unless it is supported by some kind of "graft." The city paper can get more for its advertising. The local paper having a smaller number of subscribers has larger expenses in proportion. Most local papers in this part of the country use cheap paper and give very little good reading matter. Local papers in the West all charge \$1.50 a year.

So you must go without The Citizen or else pay a dollar a year. Now is it worth a dollar to you and your family?

If you have a paper at all you want a good one. You want good paper and type so that young and old can read without distress or eye trouble. You want all kinds of reading matter that The Citizen provides—something for the farmer, the housekeeper, the young folks-the news, the Sunday School lesson, the jokes, the stories, and you want a paper made especially for Kentucky and not for Kansas City or Ohio!

You want to know how to run a farm in these mountains and not in Missouri! You want help in housekeeping on these forks and branches and in these valleys, and not in some city! And you want news about your neighbors as well as about things that are far off!

And you want a paper that stands up for the mountains, and for temperance and religion, and for progress and uplift, as The Citizen does. If you did not read it yourself you ought to pay a dollar a year just to benefit the community!

The Citizen has been the big thing in bringing up many a family from shiftless renters to prosperous, land owning farmers. It helps put ambition into boys and girls: it is everywhere a helper. It is worth a great deal more than a dollar a year. If you paid its worth it would be nearer a dollar a week!

"Free Silver" Endorses "Votes for Women"

William Jennings Bryan has written a long letter in favor of Woman Suffrage. He is a good man, and wellknown, and the letter will be widely read. But he is not a wise man. He thought he could benefit the country by "The free coinage of silver, 16 to t. "Votes for women" is much the same kind of a delusion. It seems to some as though it would benefit women, but it would drive a wedge through every home, and upset the sweet balance of duties that gives dignity to both men and women. It is "a reform against nature".

GENERAL BENNETT H. YOUNG ANNOUNCES HIS PLATFORM

Distinguished Candidate For the Short Term Senatorship Gives Reasons For Nomiination—Asks For Recognition

GENERAL BENNETT H. YOUNG

PLATFORM AND ANNOUNCEMENT

To the Democratic Voters of Kentucky:

I am a candidate on the Democratic ticket in the primary for the Short Term in the United States Senate. This service will last only

I ask the votes of my party because I have served it with unfailing loyalty for more than forty years. In every city, state and national campaign since 1872, without compensation, or even the payment of traveling expenses, I have gone when and where the party authorities asked, and defended Democratic principles and advocated the election of its atandard bearers.

the contest between Governor Beckham and John W. Yerkes, at Mt. Sterling, I assisted in opening the campsign. One hundred thousand copies of my speech wern distributed amongst the people. In the contest bntween Judge Hager and Wilson I rendered all possible aid to the Democratic standard bearers.

I was one of Governor Goehel's counsel in his contest before the Beckham's adviser when he took the office, and he declared no man ever had better counsel. At his request I induced General John B. Castleman to become Adjutant General, and General Castleman's services did much to save civil war and wide-spread bloodshed in Kentucky. members of the Legislature, after the assassination of Wm. Goebel, wera driven from Frankfort and their warrants for pay wers refused, in order to hold them together until they could return to the capital I arranged, through my own bank, to advance the pay of all who needed or desired it until such time as warrants could his secured. This amounted to many

I was a member of the Constitutional Convention and atond for the rights of the people in avery contest in that body. As Chairman of the Committee on Municipality I fathered tha enactment that limits all grants of franchises to 20 years and required thair sale for the benefit of the public and not for political favorites or grafters. This has already put hundreds of thousands of dollars in the city and county trassury, and will when old grants expired, add many millions more. I was the principal advocate of the clauses preventing railway discrimination and the acquialtion of competing lines by railroads. The value of these provisions can

not be estimated in money.

This is my first and it will be my only request for office, and after forty years of labor and service to my party ! ask the honor of representing in the United States Senate the state of Kentucky, for which my forefathers fought the red man, tha stata in which I was born, I have lived, and always served as best I could. I pray Kentucky may always be right, but I shall always be for Kentucky, right or wrong.

BENNETT H. YOUNG.

Louisville, Ky., July 8tb.

In response to the expressed wishes of many hundred voters throughout the stata, General Benaett H Young to-day made public the platform upon which he rests his candidacy for the Sbort Term in the United States Senate, to cover the ninety days, running from November 15th, 1914, to March 1st, 1915. General Young bas for more than forty-two years been identified with the Democratic party in Kentucky. Returning after the war, in 1868, and sattling in Louisvilla, Ky., he took up the practice of law, where be quickly took front rank among the foremost members of the har. From that day to the present time he has heen a consistent, earnest worker for Democratic success, and nevnr failed to help in any campaign by contribution or speeches.

Service in Constitutional Convention. liis first public service, and the only elective office that he has ever held,

was as a mamher of the Constitutional Convention in 1890. As Chairman of the Municipal Committee he was largely instrumental in

framing the Constitution which has done so much to protect the people of Kentucky. After the Constitutional Convention he became one of the leadera in explaining and advocating the adoption of the new Constitution by the people of Kentucky, who reapondad with an unprecedented majority in favor of the new instrument. At the time it was viciously attacked, espe-

for city railways and other public utilities were farmed out to those favorites who might he able to secure them hy use of influence or in other ways much less reputable. Under this Constitution all such franchisen must he sold to the highest bidder. Had this plan heen adopted fifty years before it would have hnen worth \$100,000,000 to the people of Kentucky. Under the present Constitution they must he sold at public outcry and can last only twenty years.

lie was also largely instrumental ia sneuring the provision in the Constitution which prevents a railroad from

sacuring control of competing lines, Thin has been shows to be a most valnable provisioa, notable so in the suit hy which the state prevented the pnrchase of what is known as the lilinois Central Railroad by the Louisville & Nashville, and so secured competition for all of Southwestern Kentucky. In money it is almost impossible to value the henefit of this provision.

Advisor of Gonbal.

There has never been a canvass of any importance in the State of Kentucky for the last forty years in which General Young has not taken part, always paying his own expenses and giving his time without compensation, speaking and organizing. In the dark days of 1899 and 1900 he becams one of the counsal of William Goehel in his contest for the office of Governor becially by the corporations. Previous fore the Election Commission and aft

to the Constitution of 1890 franchises

act of violence, but to live within the

At that time it was feared that tha

When it was necessary to advise with counsel of W. S. Tsylor, who ware then in the Capitol Building, with John K. Hendricks, of Paducah, Genprai Young was appointed by the rest of Governor Goehel's counsel to confer with Mr. Taylor's lawyers and took soch steps as would provent conflict. Upon entering the State House he was confronted by soldiers who had their hayonetted guns across the entrance. Being refused admission, they defied these soldiers and entered the State liouse, and, after a conference with Governor Bradley and associates, such arrangements were made as prevented bloodshed between the contending factions. in connection with iion, J. C. S. Blackburn, Phil B. Thompson and Judge Thomas Pnynter, hn remained ia Frankfort to look after the interests of Governor Beckham. Many friends there and be remained until the end.

Governor Beckham, in introducing him to an audience on an occusion when General Young was making a speech upon the anniversary of Governor Goebel's death, said that General Young had been bis wisest and truest advisor and his hest counsel in those trying days.

In the Contest Between Beckham and Yarkes.

When the contest occurred between Governor Beckham and John W. Yerkes, General Young was asked by the State Committee to make one of the opening speeches of the campaign at Mt. Sterling, Ky. The committee published 100,000 copies of this speech for distribution, and it was not only largely circulated, but published either in whole or in part in every Democratic paper in the state, and it was agreed at that time that this speech had a very large influence in aiding Governor Beckham's election.

in introducing General Young some timp afterward to iton. William Jennings Brynn, Senator Blackburn sald that this Mt. Sterling speech at the opening of this campaign was, in his judgment, the most effective campaign speech ever made in Kentucky.

Long Service for the Democratic Party.

In avery contest General Young orne an earnest and tive part and has probably made morn liquor traffic, lying as it does at the speeches than any man in Kentucky center of all political and social miswho has never held office. Heginning with the period when he helped canvass for Governor McCrenry, when he was candidate for Governor the first ingness to permit it to exist, and worse time, in 1878, down to the present time, his labor and his money have nideration! It is impossible to debeen at the command of the party. and he has never hesitated in his lovalty to the principles and organization of the Democratic party.

General Young is an Earnest Supporter of President Woodrow Wilson. General Young is an earnest supporter of Prasident Woodrow Wilson, and believen that all loyal Democrata should rally to his support in upboid-

ing him in his wise and humane policy. This is the first and only office that General Young has ever asked at the hands of the Democrats of Kentucky. and great numbers of voters have said that in view of his long service to that party, his latellectual attainments and general fitness for this high office, tha Democrats of Kentucky could send no better man to the United States

UNANIMOUSLY ENDORSED

General Young's Home County Wants Him.

The following resolutions were unan imously adopted at the speaking of General Bennett H. Young at his opening address for the Short Term of the United States Senata after his speech at Nicholaaville, July 4th, 1914:

ty, with great satisfaction and pride. commend to the people of Kentucky thnir fellow-countryman, Gennral Bennett H. Young, for the position of United States Senator for the Short Term Born in our midst, wa have watched his career for many years with gen eral Interest. Jessamine County feals honored to he abla to offer to the pao ple of Kentucky one so splendidly quallifed to fill the high pince to which he aspires. A Democrat of Democrata. ever loyal to the party, we are assured that he will meet every expectation of all the people of his native state.

of the principles of Democracy for the past forty years should endear him to every voter in Kentucky, and his usefulness as a citizen is developing the state ought to win for him a great victory in the August primary.

Political

By REV. JAMES M. GRAY, D D.

TEXT-"While men sicpt, his enemy came and sowed tares among the whest." Mart. 18.25.

approach our national hotiday gives occasion for a discourse on our political situation from a Christian standpoint. This nation is a trust from God whose wise ad ministration shall all be held proportionally responsible. over the mainte nance of God's honor and progress of his

truth in the earth are so affected hy hunian governments that he is not only a weak citizen but a weak t'hristian parable as recorded by Luke. who, making one in a republic, allows himself to become indifferent to its administration.

There have been those who have be ileved this nation to be a peculiar favorite of God. They have felt that urged him to ienve the capital, but ha he led thither those who laid its founsimply decided that duty called him dation upon Plymouth Rock. That he nerved the hearts of their successors who cemented its masonry with the blood of flunker fift and York town. They have feit, to change the figure, that these men sowed good seed in this field, but while men slept, while we have all been engrossed in our schemes for wealth, an enemy hath sowed tares. The situation to day is not the harvest our forefathers would have wished. It is not the legitimate outcome of the Declaration of Independence.

> I. One of our political tarea is the peculiar tide of immigration to our shores, the character of which has changed radically within n few years Our first settlers had an inborn spirit of freedom and a past history of conquest and success, and their immediate successors, though sometimes inferior in other respects, were of kindred blood, and came from lands where the spirit of liberty snil the political duties of the individual have been cherished. They have thus been easily assimilated and have helped to build up the prosperity of the country Itut it is not so with reference to the present immigrants, many of whom have been down-trodden politically, and have no ideal of citizenship. We should rejoice, indeed, at an opportunity to be a hiessing to them, but we should not swallow more of them than we are nhle to digest.

> II. Another of these "tares" is ehlef, and paralyzing energies in every direction. The responsibility of Christian citizens lies in their willstill to permit it to exist for a constroy the appetlie, but it is not im possible to deny the opportunity to gratify the appetite by law. Has not tha time come for Christians who know the meaning of the Decinration of independence, to say nothing of the Decaingue, to break the shackles which hind them to a social custom. to a blind prejudice, or even to a political party, ia order to nerve their homes, their God and their native land in driving thin rum demon from

> onr abores? III. Another of these "tares" is the escularization of the Sabbath daya growing tendency to change that day from a holy day into a holiday, to coavert it from a day of rest into a day of labor, to neglect the public worship of God, the sacred observance of his laws for the sake of social pleasures and business galas.

> Who in responsible for these things! Could secular anterpriaes prosper on the Lord's day if Christians frowned upon them? And has not God a controversy with un for these thingn? Will he not avenge himself on such a nation as this? How can we have religion without worship? And how can we have worship without a Sabbath?

> What can we do about these things? (1) We can throw thn weight of our example on the right side. Wn can certainly do thin so far as the keeping of the Sahbath is concerned, and so far as the liquor traffic la concerned. God would have saved Sodom had there been ten righteons mea in that place.

> (2) We may throw a bailot on thn right side. As Joseph Cook once said: The managing politicians cara for nothing but arithmetic and, therefore, one of our supremn duties is to stand up, and stand together, and be count-The powers that be are ordnined of God, and as God's servants we are to see that his will, and not the will of Satan, is carried out in the aelection

> (3) There is a third thing we can do, and that la pray. The effectual fervent prayer of a righteous man availeth much. Remember Ahraham's intercession for Sudom and Ne hemiah's for Jerusalem. Hut alas, how little do we pray for these things! Alas for our patriotism when we are ssieging the throne of grace!

INTERNATIONAL SUNDAY SCHOOL

LESSON FOR JULY 26

THE POUNDS AND THE TALENTS. t.ESSON TEXT-Luke 19.11-27, cf. Matt. 25:14-20.

GOLDEN TEXT—"Well done, good and fatthful servant, thou hast been faithful over a few things, I will set thee over many things; enter hide tim joy of thy lord." Matt. 25.2t R. V.

Wa ara told plainly why Jeans spoke the first parable (v. 11). We must beware of confusing these two parahiea though they are one in their essential

teachings. The parable of the pounds was uttered before the triumphal entry of Jesun into Jerusalem while that of the talents was spoken subsequently. This association does not mean identity for each has a separate lesson. Hoth have to do with an absent lord whose return was imminent. Thu Jews looked for a temporal visible Kingdom and many were associating the earthly life of our Lord with that expected manifestation. Hence this

issue is Fidelity.

1. "Occupy Till 1 Come," vv. 11-14. Both of these parables have to do with thn return of an absent lord who will then establish his kingdom. in view of this return and consummation, his servants are to give their undivided attention to their immediate responsihilities. They are to trade, to do husiness with that that has been intrusted to them They are to actively discharge their duty. Ero the visible kingdom is established, Jesus told these Jews, there must be a period of preparation. Jesus, himself, is the "nobicman" whose ascension into heaven where he is to receive a kingdom faifils the "departure into a far country." He will return to set up that kingdom, Acts 1:9-11, with "all authority," Matt. 28:18 R. V., Eph. 1: 18-23; 1 Pet. 3:22. He may return at any time. In neither parable is there a full description of the kingdom as it is to be established, for both have to do with the servants. The issue is

that of fidelity in each case. The "citizens" (v. 14) include his proper subjects the Jews, John 1:11; Acts 4:27-28, and in this connection we recall their cry, "Away with him, crucify," Luke 23:8; John 19:15. These "citizens," also include all of his professed followers but not necessarily regenerated men, Matt. 7:22-33. Tho king gives to each servant (v. 13) a pound (about \$18.00). His deposit is equal in each case. In the parable of the talents there is a difference in the amounts bestowed. This last emphasizes the fact that each is to be held responsible according to the measure of his own personal ability. Putting these two together we see that all the for the one pound which is a symbol of the common fact of the kingdom power. At the same time the servant is also responsible for that common power according to the mensure in which it is entrusted to him, in which he is able to deni with it. The small amount of one pound indicates our responsibility for the smallest gifts.

Parable of Pounds.

II. "When He Was Returned." vv. 15-30. The parable of the pounds was spoken to those who thought be must at once establish he kingdom of God. That of the talents was given in answer to the disciples' inquiry as to when certain things which he had foretold would take place. Upon his return all these servants will be summoned before him, Matt. 25:18, Rom. 14:10-12, 11 t'or, 5:10. Aa Jesua stood there, be, likewise of that as of all other agen, saw ahead of him Jerusalem with its scourging, suffering and death. He also saw beyond that his resurrection and departure to receive a kingdom (v. 12), a period therefore in this world during which his servasts shall be responsible for tha care of his interests, a time during which they shall occupy, do husiaces with what he has catruated them of the kingdom authority and power. All of this will culminate in his return when be will deal with those to whom this responsibility has been givea, and then establish finally his kingdom. In the parable Jesus deals with each servant asparately, and emphssizes the fact of siewardship. Thir pound belonged to the king. For his faithfulness the first servant received. v. 17, (a) the king's commendation and (b) nuthority over tea cities. Later, (v. 24) he also received another pound. The second did not give quito ao good a report, and his reward lacked the approbation of the kingthough he is placed over "five citlea." lila reward was in proportion to his

The third report was bad. It re veals neglect, laziness, and a wrong, conception regarding the klag. lie sought to excuse his sloth by hlaming another. The excuses of the slaaer always condemn himnelf, not God, and augment the sinner's guilt. The 'wicked servant" lost what he would not use. If we will not use we must lose. Doubtless this servant considered himself unfortunate, though he was judged "out of his own mouth." Reverting ngaia to those citizens who hated him and would not have the king to "reign over them," Jesus closes his parable (v. 27).

Making the Little Farm Pay

By C. C. BOWSFIELD

EGGS become summer that In order to clear any money poultry owners must have a select trade to sell to, or else hatch chickeus and supply the market with proffers and roast-

ers. The broller trade is attractive, as he used in place of Blue Grass on hotels, restaurants and cinis require an almost unlimited supply of these quantity of seed. Unless sufficient be used on steep lands that cannot plumic chickens about two months old and weighing two to three pounds. To make money reasonably fast one needs two or more incumuters and should keep irens enough so that a machine con be illied in three to five days There will be a supply of eggs to sell each month, but the bulk of them will go into the production of ponitry.

Observe the principles of uniformity freshness, cleanliness Eggs for batching should be clean. If not clean they should be washed in tend water and esrefully dried with a cleau soft towel. Come to the farmers meeting at This washing does not injure the egg. but it must be done quickly and carechurch on Hig Hill pike Saturday at fully or the jarring of the contents 3:00 p. m. and learn how to cut your may ruln it for intching. As fast as the eggs are washed and dried they should be covered with a layer of Are we all truly thankful to our clean cloth or absorbent cotton to pre-Heavenly Father for the abundant vent their becoming chilled. It is a good practice to stand the eggs in a cool, quiet place, each with the large end uppermost, for a period of twelve All corn that is not too large bours before pincing for incubation should be cultivated again after the This balances the yolk in the center rams. Don't go down and break off and locates the air cell.

half the roots of the corn, but stir Eggs waiting for incubation should the lop to make a dust mulch that be kept at a temperature of about 60 degrees F., although they will stand will hold the moisture. You may a variation of temperature from 40 to 100 degrees. They should not be allowed to dry out, nor should they he exposed to a current of cold sir, steam fine growth of cowpeas coming on or vapor. During storage eggs for incubator use should be turned every Oals like grass will do no good on day,

> Hens kept in unhealthful quarters or too closely confined are not likely to lay eggs that will produce strong, healthy chickens, tiens suffering from disease or infested with vermin may lay, but eggs from such hens will rarely batch, and even if they do batch the chicks will not be likely to mature into vigarous or growthy fowis.

Hence in order to secure hatchable eggs the hers must be healthy, have plenty of exercise and be fed upon an assorted or balanced ration. An exclusive corn diet will not make for fertillty. Fowls in confinement must have a mixed diet and plenty of ground bone, with meats, clovers or other substances in the line of nitrogenous food It is wise to aim at uniformity in age, size, color and breed. There is a great deal in selection, and this goes back to the parent stock before the eggs are If the flock is uneven the hirds ought to be separated into pens so that the eggs taken for batching are sure to be fertile and from a good strain of as much for it when wheat is 75c hens.

The best pullets hatched every spring ought to be kept for winter egg pro much when wheat is cheap as when duction. They will begin laying when prices are high. Pullets will begin laying at five to seven months of age, no cording to the kind of blood in them Nearly all the pullets hatched in Murch will begin hying in October or November, just in time to furnish a supply of eggs when prices are highest. A good plan is to bring juillets along stendilly without forcing, and they will be good size at six to seven months. Keep the flock divided and do not let noiles run with pullets the first year or while the eggs are wanted for market. When wanted for hatching let the males run with them, twelve or fourteen hens for

It is obvious that the best results economically come from chickens running at large on the farm. With but little attention they gather the greater part of their food, and it is properly bulnaced at that.

In order to provide a large grain supply at the least expense a nearby tract -say the orchard-should be planted to wheat, the chickens being confined until it has conce up well to prevent scratching out the seed. When ripe the birds will nttack the crop, doing the reaping and thrashing, with no ntteation whatever from the owner,

Circular and Flat Beds. A charming circular bed can be made from a combination of blue clemstis and pluk gladioli. The clematis is plaated in the middle and trained low over the bed on wires about one foot spart and fifteen inches from the ground radiating from the center. The giadioli grow up through the wires. A simple and lovely flat bed can be made by sowing a carpet of sweet nlyssum, Little Gem, white, and doiting it

To Preserve Plants.

with Lliac Queen.

A good method of preserving plants that have been transplanted unit before their roots have taken hold of the ground is to cover them with inverted flower pots of suitable size. These should be la place only during the warmest and sunniest part of the day. They should not be used on dull days They prevent the strong sun from scorching the fullage and also help to maintain the moleture in the soil.

SWEET CLOVER.

Net a Wasd and Hee Considerable Ag ricultural Value.

The Kanssa experiment station in a recent publication makes it plain that sweet clover, a hitherto neglected plant, despised as a pernicious weed. has very considerable agricultural value. It is stated that "as a soil improver it is unexcelled; for pasturing purposes it has considerable value, and as a fornge crop it can be utilized to good advantage where alfalfa or red clover cannot be successfully grown," Attention is called to the fact that

"there are several varieties of sweet clo ver, of which the common white sweet clover and the large idennial yellow sweet clover are the most important. The widte variety is generally to be preferred for farm purposes, although the blennial yellow is sometimes preferred where hay production is desired." Sweet clover is adapted to a wide range of soils, and while it does best on good soils it will make a satisfactory growth on very poor solis.

Grown on good soil and properly handled it makes a fair quality of hay which may in many cases be suistituted with advantage for the more valuable aifaifa and clover hays. In actual antritive constituents it is practically equal to these. It makes an excellent pasture for cattle, sheep. borses and hogs, and for this purpose may be profitably grown on very poor and rough land.

For quick results in improving the sail sweet clover is superior to most other crops. Its ability to thrive well on solls lacking lu humis or otherwise badly run down makes it especially adapted for this purpose. Like aifaifa, cowpess and other legimes, it has the ability to obtain pitrogea from the air by means of the nitrogen gathering bacteria which live in tubercles on the roots of the plants, thus adding much nitrogen to the soil in which it grows. When plowed under for green manure or allowed to remain on the land this crop is a very efficient one la building up the humus content of the soil. The large roots, which penetrate deeply, break up the lower layers of the soil and add much humus thereto when they decay, thus improving the physical condition of the soil to a considerable depth below the depth of plow become quite productive.

Seil Texture and Moisture.

The term texture when applied to the soil refers to the size of the soil particles. Generally speaking, there oa texture, sand, slit and clay, and all America. As a program maker, Tha- aung throughout the country. productive solls are, as a rule, composed of combinations of the above

The amount of movement and the rate of movement of soil moisture are governed to quite an exteat by texture. la saad we flad that the action is rapid, but lasts but a short time. Oa the other hand, the movement in clay is very slow, but the water travels through a much greater distance. In soils of medium texture the action is intermediate throughout. In the average soil movement of water is confined to a few feet, but la some of the fine textured soils it may travel a coasiderable distance.

Shade For Chickans By means of a sallcloth, duck or fac-

tory cotton curtain, shade may easily be supplied chickens where there are illustrated herewith the stakes are

COMBINATION CHICKEN COOP.

about two feet long and drivea four to six inches in the ground. The curtain is tied only at the corners. On the windy aide the tying is closer to the ground than on the lee side. This is of special bein in spring and sumarer.

SOWING TURNIPS.

Turnips can be sown even as late as the beginning of August. These are the yellow, fleshed varieties, and for stock feeding the seed is sometimes sown broadcast from the 15th of July to Aug. 5. About two and a hulf pounds of seed to the acre should be

For earlier use la gardea culture plant ia rows one to one and a half luches deep and a foot to a foot and a half apart. The plants should be thinned to

stand from four to eight luches apart in the row, depending on varieties sown.

In field culture the rows are often thirty inches apart to allow for horse cultivation.

The most popular garden varieties are Early Fint Dutch, the Purple Top and the While Top Strap Leaf. The Swedish (rutabaga) is the best

for cattle and sheep. The turnip needs a rich soil with good cultivation to produce results. A finely pulverized soli with high fertility is best. Good manuring is necessary. Use oid ma-aure finely broken. The English farmers manure the turnips excinsively in the drill, which gives them a fine start A strong foam well drained and kept mellow by frequent cultivation will

hold manure well and yield heavy crops. Rutabness clean the land of foul stuff and with proper manuring and plenty of cultivation prepare the land for any succeeding crop that aceds a well prepared soil.-Rural

Blue Grass Fair Is a Mamber American Poultry Association.

The Biue Grass Fair is a member of the American Pouitry Association, and the exhibit in this large and important department will be governed by the rules of that Association. This is a guarantee of equal rights and justice to ail.

A classification embodying premiums for over 300 classes of poultry and pigeons has been prepared, and almost every kind of woman's work the management expects this year to he, as usual, a great show.

In addition to cash premiuma, the Blue Grass Fair and a number of merchants of Lexiagton have donated alluo trees or hushes. in such a case as ver cups and many additional prizea of merchandiae, etc.

Heretofore the Pigeon Department has been under the management of the Poultry Department, but through the interest of the wide awake Pigeon Breeders of this section, the managemeat of the Blue Grass Fair has appointed a committee of the foremost pigeon breeders and placed the department in their hands, which assures a hig show under proper management. Dr. C. W. Trapp, Dr. A. Porter Taylor and Mr. E. W. Hoke have been engaged as judges and a winning here wili mean as much as at any state fair in the country. Come, bring your hirds and help us make this the largest and most successful skow in the South. If you can not come yourself, aend your hirda, and we assure you they will get the proper care and atiention.

Birds will be cooped in Standard Uniform Coops, and one bird to the section, for which the amail sum of five centa per hird will he charged. This assures no fighting or ragged birds at the end of the show. Every attention will be given hirds not accompanied hy owners, so in making an entry here you can rest assured that your birds will be well cared for,

Haif Fare Rates to Fair. Do not fall to visit the Biue Grass

Fair at Lexington the week of August 3rd to 8th. One fare rates will prevail on all railroads in Kentucky. Every afternoon and evening, beginning Sunday, August 2nd, there will be ciasa vocalista in a Grand Sacred Con-

A new standard will be act for fair music. Heretofore we have been content to hear instrumental concerts interspersed with some renowned soloists in choice selections, but Thaviu introduces a quartette and, how they make the furtherest nook and cranny of the amphitheater echo with the marvelous and ever fresh strains from "Lucia," "ii Trovatore," "Carmen," "Martha," etc. . Hardly has the insinuating quartette been stilled when forth troops a perfect charge of trumpets and trombone players, and, with Thaviu himself leading the van, such outbursts of harmony are not often heard. It is not the usual biatant, noisy de-

HALF FARE RATES TO FAIR monstration of a brasa choir, but a musically effective combination, swelling in great aounds until a startling climax is attained.

Amusement lovers who crave originailty will find it to their heart's content at the Blue Grass Fair this year. Woman's Department.

The Woman's Department of the Biue Grasa Fair, to be held at Lexington August 3rd to 8th, will be more important and extensive this year than ever before. The premium list has been revised, and classes offered cover and table luxuries. The third floor of department, and is usually one of the most attractive exhibits of the Big

The second floor will again be utilized this year hy the "Merchants of Lexington," and it is needless to say will be an attractive exposition of wares manufactured and soid in Lexlagton.

Saddle Hornes.

Saddie horsea will he an important feature at Lexington this year. Outstanding in importance among the live atock features of the Blue Grasa Fair will be the Kentucky Stako, guaranteed \$1,000, to be divided into aix moneys. This stake closed with 113 eniriea, representing all of the best hreedera la Central Keatucky, and was inaugurated this year by the Fair Association and the stake guaranteed by the management.

Additional stakes for yearlings, twoyear-oida and aged classes abouid make this year's program the most attractive ever seen at a fair for saddle horses, as both three and five-gaited classes are provided for.

We may wager that any idea of the public, or any general opinion, ia a folly, since it has received the approbation of a majority of the people.-

A Stirring Story of the

Mexican Revolution

A story of border Mexico, vivid. Intensa, auch sa has never before been written, is this one of American adventurers into the land of manans. Texan, mining engineer, Spanish senor and senorita, peon, Indian, crowd its chapters with clear-cut word pictures of business, seventure and love, against s somber background of wretched srmies marching and countermarching across a land racked by ravolution and without a savior.

"Boys," he said, "I'm feeling lucks today or I'd never have closed this deal. I'm letting you in on one of the higgest things that's ever been found In Sonora. Just to show you bow good It is, here's my smelter receipts for eight hundred pounds of picked oreone thousand and twenty-two dollars! That's the first and last ore that's ever heen shipped from the old Eagle Tall. I dug it out myself, and sacked it and shipped it; and then some of them crooked Mexican officials tried to heat me out of my title and I blowed up the whole works with dynamite!

"Yes, sir, clean as a whistle! I had my powder stored away in the drift, and the minute I found out I was euchred I laid a fuse to it and brought the whole mountain down. That was ten years ago, and old Aragon and the agente mineral have had the land located ever since.

"I het they've spent five thousand pesos trying to find that lead, hut being nothing hut a hunch of ignorant Mexicans, of course they never found nothing. Then Francisco Madero comes in and fires the agente mineral off his joh and old Aragon lets the land revert for taxes. I've got a Mexican that keeps me posted, and ever since he sent me word that the title had lapsed I've been craxy to relocate that

"Well, now, that don't look so had, does it?" he asked, heaming paternally at Bud. "There ain't a man in town that wouldn't have jumped at the chance, if I was where I could talk about it, but that's just what I couldn't do. I had to find some stranger that wouldn't sense what mine I was talking about and then git him to go in on It bilnd.

"Now here's the way I'm fixed, boya," he excialmed, hrushing his unkempt heard and smiling craftlly. "When I dynamited the Eagle Tail it was mine hy rights, hut Clpriano Aragon-he's the hig Mexican down et old Fortuna-and Morales, the mineral agent, had huncoed me out of the title.

So, according to law, I blowed up their mine, and if I ever showed up down there I reckon they'd throw me into jail. And if at any time they find | holl and the city was swarming with out that you're working for me, why, we're ditched-that's all! They'll put you out of husiness. So, after we've made our agreement and I've told you what to do, I don't want to hear n word out of yon-I don't want you to come near me, nor even write me a letter-just go ahend the best you can until you win out or go broke.

"It ain't a hard proposition," he continued, "If you keep your mouth ahut, but if they tumble, it'll he a fight to a finish. I'm not saying this for you, Ilooker, hecause I know you're safe; I'm saying it for your pardner here. You talk too much. Mr. De Lancey," he chided, eying him with sudden severity. "I'm afraid of ye!"

"All right,' broke in Hooker goodnaturedly, "I reckon we understand. Now go ahead and tell us where thia mine is and who there is down there to look out for."

"The man to look out for." anawered Kruger with venom, "la Cipriano Aragon Ile's the man that hitked me out of the mine once, and he'll do it again if he can. When I went down there-it was ten years and more ago -I wasn't on to those Spanish ways of hia, and he was so dog-goned polite and friendly I thought I could trust

"He owns n big ranch and mescal still, runs cattle, works a few placera, sends out pack-trains, and has every Mexican and Indian in the country in deht to him through his store, so if he happens to want any rough work done there's always somebody to do lt.

Well, just to show you how he did me, I got to nosing round those old Spanish workings east of Fortuna and finally I run across the ledge that I'm telling you ahout, not far from an ahandoned shaft. But the Mexican mining laws are different from ours, and an American has lots of trouble anyway, so I made a trude with old Aragon that he should locate the claim for me under a power of attorney. Didn't know him then like I do now. The papere had to be sent to Moctesuma and Hermosillo, and to the City of Mexico and hack, and while I was waiting around I dug in on this lead and opened up the prettiest vein of quartz you ever asw in your life. Here's a sample of it, and it's sure

He handed De Lancey the familias lece of quarts and proceeded with his

"That ore looked so good to me that

I couldn't wait-I shipped it hefore I got my title. And right there I made my mistake. When Aragon saw the gold in that rock he just quietly recorded the concession in his own name and told me to go to hlazes. That's the greaser of it! So I blew the whole mine up and hit for the horder. That'a the Dutch of It. I reckon," he added "Anyway, my old man was

He pauced, smiling over the memory of hia misplaced credulity, and Hooker and De Lancey joined in a hearty laugh. From the town hum that he had first seemed this shabhy little man had changed in their eyea until now he was a border Croesus, the mere recital of whose adventures conjured up in their minds visions of gold and hidden treasure.

The rugged face of Bud Hooker, which had been set in grim lines from the first, relaxed as the tale proceeded and his honest eyes glowed with admiration as he heard the well-planned scheme. As for De Lancey, he could hardly restrain his enthusiasm, and, drawn on hy the contagion, Henry Kruger made maps and answered questions until every detail was settled. After the location had been marked.

and the loat tunnel charted from the corner monuments, he hade them remember it well and destroyed every vestigo of paper. Then, as a final ed-

monition, he said: "Now go in there quietly, boysdon't hurry. Prospect around a little and the Mexicans will nil come to you and try to sell you lost mines. Cruz Mendex is the man you're looking for -he'a honest, and he'll take you to the Eagle Tail. After that you can use your own judgment. So good hy"-he took them by the hands-"and don't

He held up a warning finger as they parted, and Bud nodded hriefly in reply. Slience was a habit with him, desert-hred, and he nodded his head for two.

CHAPTER IV.

From the times of David and Jonathan down to the present day the world has been full of young men aworn to friendship and seeking adventure in pairs. "Purdners," they call It is as different from "partner" as a friend is from a business sesociate.

They travel together, these pardners of the West, and whether they be cowboys or "Cousin Jacka," the boss who fires one of them fires both of them. and they go share and share in every-

had met hy chance in El Paso when where the breed is short, they atood the revolution was just beginning to adventurers. The agenta of the rebela were everywhere, urging Americans to join their cause. Military preferment, cash payments, and grants of land were the halts they used, but Ilooker atood out from the first and took De Lancey with him. A Mexican promise did not pass current where he was born and they went to the minea in-

Then the war broke out and, while fugitives streamed out of stricken Cbihuahua, they finally struck out ngainat the tide, fighting their way to a certain mine for back in the Sierra Madres, where they could dig the gold on shares.

Behind them the hattle waged: Casas Grandea was taken and retaken: Juarez, Agua Negra and Chihuahua fell; Don Porfirlo, the Old Man of Mexico, went out and Madero took his place; and still they worked for their

Then new arms and ammunition flowed in from across the border; Orozco and his rehel chiefs went out. and the hreath of war fanned higher against the hills. At last the first broken hand of rehels came atraggling hy, and, reading hate and envy in their lawiess eyes, the Americans dug up their gold at sundown and rode all the night for their lives,

And now, welded together hy all that toll and danger, they were pardners, cheriahing no delusiona as to each other's etrength or weaknesses, but joined together for hetter or worse.

It was the last thing that either of them expected, but three days after they fled out of Mexico, and with all their money unspent, the hand of fate seized upon them and aent them back to another adventure.

It was early morning again, with crowds along the street, and as they amhled slowly along toward the line the men on the corners atared at them. The bunch of cowboys gazed at Bud, who aported a new pair of high-heeled boots, and knew him by the way he rode; and the mining men looked ecarchingly at De Lancey, es if to guess the secret of his quest.

A aquad of mounted troopers, riding out on border patrol, gazed after them questioningly, but Bud and Phil rode on soberly, leading their pack, and needed for Agua Negra across the line. border town of Agua Negra, for the war had ewept it twice. A broad waste of lavel land lay between it and the ful about this, Phil, and you keep right if he's killed, he avenges his ..."

prosperous American city, and acrose; on being glad, but I got a low-down this awath, where the Mausers and machine guns had twice mowed, lay the huddle of low houses which marked the domain of Mexico.

Fussy little customs officials, lurking like spiders in their cooped-up guardhouses, rushed out as they crossed the deep trench and demanded their permit to bear arms. The moment they crossed the line the air seemed to he pervsded with Latin excitability and indian jealousy, but De Lancey replied in florid Spanish and before his polite assurances and ful-

Mads Maps and Answared Questions Until Every Detail Was Sattlad.

some complimenta it was dissipated in a moment.

"Good! Pass on, amigos," cried the

beady-eyed little jefe, pasting s label on their pack. "Adios, senor," he sdded, returning Phil's salute with a military flourish, and with a scornful glance at Itud he observed that the gentleman was muy cabsliero.

"Huh!" remarked Bud, as they rode on through the town, "we're in Mexico them in the west, and though the word sli right, all right. Talk with both has not crept into the dictionary yet, hands and get husy with your eyehrows-and holy Joe, look at them pelones!"

The pelones referred to were a squad of Mexican federal soldiers, socalled from their heads being shaved, and they were marching doggedly to and fro through the thorny mesquit bushes in response to shouted ordera Bud Hooker and Philip De Lancey from an officer. Being from Zacntecas, crumpled linen suita and flapping sandale detracted aadly from the aoldlerly effect.

Big and hulking, and swelling with the pride of his kind, Hooker looked them over alowly, and spoke his hidden thought.

"I wonder," he said, turning to Phil, how many of them I could lick with one hand?"

"Well, they're nothing but a lot of etty convicta, anywny," answered De Lancey, "but here's some boys ahead that I'll bet could hold you, man for man, husky as you are, old fellow."

They were riding past a store, now serving as an improvised barracks. and romping about in the streets were n pair of tail Ysqui Indians, each decorated with a cartridge-belt about his hlps in token of his military service. Laughing and grahhing for holds, they frolicked like a couple of boys until finally they closed in a grapple that revealed a sudden and pantherlike strength.

And a group of others, sunning themselves against the wall, looked up at the Americana with eyes as fenriess as mountain eagles.

"Yes, that's right," admitted Bud, returning their friendly greeting, "hut we'll never have no trouble with "Well, these Nacionsles are not so

had," defended Phil, as they passed the state soldiers of Sonora on the street, "but they're just as friendly as the Yaquis." "Sure," jeered Bud, "when they're

acher! Itut you get a hunch of 'em drunk and ask 'em what they think of the gringos! No, you got to show me -I've seen too much of 'em."

"You haven't seen as much of 'em as I have, yet," retorted De Lancey quickly. "I've heen all over the repub lic, except right here in Sonora, and I swear these Sonorans here look good to me. There's no use holding a grouch against them. Bud - they haven't done us any dirt."

"No, they never had no chance." grumbled Bud, gazing grimly to the south. "But wait till the hot weather comes and the revoltosos come out of their holes; walt till them Chihuahua greaters thaw out up in the Sierras and come down to get some fresh mounts. Well, I'll tell 'em one thing," he ended, reaching down to pat his horse, "thay'll nevar gat old Copper Bottom here—not unless they steal him at night. It's all right to be cheerhunch that we're going to get in bad." "Well, I've got just as good a hunch," came back De Lancey, "that we're go-

ing to make a killing." Yes, and speaking shout killings," anid itud, "you don't want to overlook

lie pointed at a group of diamantied adobe buildings standing out on the edge of the town and finnked by a segment of whitewashed wall sli spnttered and breached with bullet-holes,

"There's where these prize Mexicans of yourn pulled off the higgest killing in Sonora. I was over here yesterday with that old prospector and he told me that that wall in the bull-ring. After the first hig fight they gathered up three hundred and fifty men, more or less, and throwed 'em in a trench along hy the wall-then they blowed it over on 'em with a few sticks of dynaulte and let 'em pass for buried. No crosses or nothing. Excuse me, if they ever break loose like that-we might get planted with the rest!"

"lty Jove, old top," exclaimed De Lancey, laughing trasingly, "you'vecertainly got the blues today. Here, suto turned furtle in front of my yard, take something out of this bottle and see if it won't help."

He brought out a quart bottle from his asddle-hags and itud drank, and shuddered at the blts of it,

"All right," he said, as he passed it back, "and while we're talking, what'a the matter with cutting it out on booxe for this trip?"

then?" cried De Lancey in feigned alarm, "wster?" "Well, something like that," admit-

ted Rud. "Come on-what do you say? We might got lit up and tell 'Now lookee here, Bud," clamored

Phil, who had had a few drinks alrendy, "you don't mean to insinuate, do you? Next thing I know you'll be asking me to cut it out on the haymight talk in my sleep, you know, and give the whole snap away!" "No, you're a good boy when you're

ssleep, Phil," responded Bud, "hut when you get about half shot it's different. Come on, now-I'll quit if you will. That's fair, ain't it?"

"What? No little toots around town? No serenading the senoritas and giving the rurales the hotfoot? Well, what's the use of living, Bud, if you can't have a little fun? Drinking don't make any difference, as long as we stick together. Whet's the use of swearing off-going on record in advance? We may find some fellow that we can't work any other way-we msy have to go on a drunk with him in order to get his goat! Itut will you stick? That's the point!"

Hud gisneed at him and grunted, and for a long time he rodo on in stience. defore them lay a rolling piain, dipping hy broad guiches and dwindling ridges to the lower levels of Old Mexlco, and on the skyline, thin and blue, stood the knifelike edges of the Fortunas miles sway.

With desert-trained eyes he noted the landmarks, San Juan mountain to the right, Old Niggerhead to the left, and the feather-edge of mountains for below; and as he looked he stored it away in his mind in case he should had left him. come back on the run some night.

was not a foreboding, but the training of his kind, to note the lay of the ground, and be planned just where he would ride to keep under cover if he ever made a dash for the line. Itut all the time his pardner was talking of friendship and of the necessity of their sticking together. 'l'il tell you, itud,' he said at last,

and broken promises. I know the coun- man of genius. try, Bud-and the climste-snd the 80 the third week that the young women!

of us, Bud, these dark-eyed senoritasi pininiy, That's what makes all the trouble down here between man and man, it's niece Lucile?" I demanded bluntly. these women and their ways. They'ra not satisfied to win a man's heart- in lad. they want him to kill somehody to other.'

"We never had any trouble yet," observed Bud sententiously. "No, but we're likely to," protested

De Lancey. "These Indian women up in the Sierras wouldn't turn anyhody'a hot country now, where the girls are pretty, ta-ra, ta-ra, and we talk through the windows at midnight."

Well, If you'll cut out the booze, sald Hooker ahortly, "you can have 'em all, for ell of me."

'Sure, that's what you say, but wait till you see them! Oh, la, la, la"—he klased his fingers ecstatically—"I'll ba rlad to see 'em myself! But listen Bud, hera's the proposition, let's taka an oath right now, while wa're starting out, that whatever comes up we'll always be true to each other. If one bim; if he's in prison, ha gete him out; be felt more at home there than else

Where There's a Will

There is Also, a Way

By BLANCHE 1. GOELL Copyright by Frank A. Munney Co.

There isn't any use of living to be as old as the hills as I have unless you can do exactly as you please, especially when your own think-best is a great deal better than anyhody else's think

Now, I'd been thinking secret-like and saying open that 'twas high time my grandniece Luctia was married.

It wasn't likely that I could live on indefinitely, and it might be some Amusement to me in the bereafter to recollect the features of Lucila's bus And it would be pleasant to have a

little child about, a boy or a girl, for me to pet during the few remaining years to me on earth, when one naturally inclines to the young. I didn't know where an eligible

young man was coming from in these parts. Itht from the minite I was born i always had an opinion on every subject, and I knew I'd find the young man sometow.

So when come Pudley Holbrook's and young Indley Holbrook draped himself around my stone post and garden gate with a broken arm and a broken collar bone I had the idred man carry him straight up to the spare

After the doctor had set his bones and bandaged his head I sat awbite by his bed and listened to his biatibing "What are you going to drink, Then I made up my mind he'd do to marry linella.

Nothing's so good an index of character and just actions as delirium talk, and, after I listened bard for fifty-five minutes and heard no mention of chorus giris, jack pots or other metropolitan polsons, I decided he'd do.

So, going out from the sickroom, addressed my grandniece:

"It's a special dispensation for you, Lucils, an act of Providence. This young man's name, according to cards and other memoranda in his pockets, is Dudley Holbrook. The newspapers had a desi to say last year about the fortune old Holbrook left his sons when he died. I consider this a most sultable marriage for you."

Luclia's brown eyes opened wide, It's n way they have when Lucila is sugry. Itut I won't tolerate suger in a voing person and prepared to say so. But all that Litells uttered was:

"What about the young man, and what about Freddle?" My grandulece has a most sunoying habit of bringing up topics wholly ir-

relevant to the subject under discusslon. What had my grandnepbew Freddie to do with the question? "Freddle!" I stormed. "Don't you dare think of marrying Freddiel 1f

ever I had such un idea in my head you." for you 'twas when he was in kilts and not in college. Freddle indeed! There is too much society about Freddie. It's sil frat and varsity and varsity and frat. Too much society, I say. won't have you marry Freddle!"

I went linck to the sickroom and took another look at the injured young man. He had a strong body, a clear, fresh skin and a look about the part of him that wasn't bandaged that told me he hadn't abused the money his father

So, having made up my mind that if the young man didn't die he should marry Lucia, I felt quite comfortable to have her future settled.

He didn't die, and I interviewed him often in the days when he was getting well in my front spare room. Everything I learned was to my satisfac-

Sometimes I hear her sing-Jove, they're a fickle lot, and nothing ing when she runs off down the garpleases 'em more than setting man den. She does all sorta of things, against man, one pardner against an. doesn't she? Once, when I was propped up in bed staring out at the apple trees, I saw her run down the slope and leap the little brook. Took it splendidly. Gee! I wish I was up and could go walking with her!"

"She's a good, sensible girl, is Lucihead, but we're going down into the ia." I looked him aquarely in the eye. "Young man, you'll go a long way fore you'll see another such girl se Luella.

> "I believe you;" he cried fervently. So in my mind 'twas as good as set-

should. But because I made no more mention of my plana Lucia seemed to think I'd forgotten them, and she didn't once demur when I sent har in every afternoon to read to the invelid. The young man got well, of course, of us is wounded, the other stays with him to be a second of the other stays with him to be a second of the other stays with him to be a second of the other stays with him to be second or the other stays with him to be second or the other stays with him to be second or the other stays with him to be second or the other stays with the second or the other stays with the second or the second or

***************** where. Of course I wasn't fool enough to think my old farm was enchanting a healthy young man who'd traveled over Europe, Asia and Africa, but 1 didn't say anything. I let him stny.

Aml one day he binrted out what I knew must come:

"Mrs. Thayer, I'm in love with Lnetis. You've been mighty good to me this summer-taken me in off the road, patched up my wounds, kept me on faith. I owe you a lot strendy. Are you willing I should spenk to Luella and anke my debt of gratitude to yan all the bigger?"

"Why do you say all this to me?" I demonded. "You're not in love with ше, иге уон?"

"Good heavens, no?" he ejiculated, and then he looked frightened when I glared at him.

Then don't waste your time talking to me," I returted.

Things were going so much to my liking that I felt free to drive to the village and have my lawyer ilraw up a new will and attend to various other

tnugled legal affairs,
"Twas somewhat absorbing, because that lawyer thinks he must do things in a certain way, but I know what I want, and my way's always best.

These matters preoccupied my time so much that I ilida't bave much letaure to give to the young folks' matrimonial arrangements, which I supposed were progressing according to the lines I'd hild out. But when young Hollcrook burst into my presence, looklng kind of wild and dejected, I saw at once I'd have to give more time to his

"What's the matter?"

He spinshed round the room desper-

"I'm six feet tall, broad shouldered proportionately, look manly enough, don't 1?" he demanded angrity. never thought my worst enemy could any I wasn't mascaline. But Litella treats me as if I were sentimental and silly and-effeminate. Uve tried in every way imagionble, but somehow can't get at it the proposal. I mean She won't walk or drive with me any more; she wou't let me get near the subject. This afternoon I made up my mind I'd say it somehow. And where did I find her? In the barnsuperintending the packing of the egg crates! You don't want your niece to spend her time in the barn counting

eggs-now, do you, Mrs. Thayer?" "It's just as well to keep our own figures as to how many eggs the men ship, when there's nothing more important on hand," I answered sagely

He dissented impatiently. "Well, I said to her: 'I've some thing awfully important I want to asy to you. Can't you give me a little time alone? She sent the man and maid away, and then she whirled round with her watch out. 'We've got to get these crates off for the afternoon train,' she declared. 'I can give you just five minutes. Now, say what you want.' Hang It all, how can a man propose

scross a dozen crates of eggs?" I had suspected this practical trait in Lucia, but never dreamed it had developed to this extent. I seized my gold headed cane and pounded vigor ously.

"Luella, come here!"

The girl came, finshed from running. "Luella, give this young man more than five minutes. He wants to marry

"1-1 love you!" he stammered. Lucits, will you have me "No." cried Lacita furiously "Never!"

"Holty tolty!" I excisimed in anger. "Of course you'll have him, Lucila. I've made up my mind to it. I won't be gainenid." "I won't be married offhand to the

first stranger who pitches binnself scress our front door yard?" cried Ln ella passionately, her eyes widening 'l won't-l won't-l won't!" I was amazed at Lucila. Never have I seen such a display of obstinate pig-

headedness in any individual, and after I had made up ray mind to this advontageous marriage the first day i saw the young man. It was preposterous!

I atamped my cane upon the floor, but forced myself to keep calm. "Lirella," I said with finality, "I have

decided it is most advantageous for

you to marry Budley A. Holbrook." "Hold on," the young man interrupted; "I'm not Dudley A. Holhrook He's the rich New Yorker."

It niways irritates me to be interrupted, particularly by young people. And this interruption was especially annoying, as it made Lucia fisre up. She turned on me like a whiriwind.

"It serves you right, Aunt Myrs, that he isn't the rich Dudley Holbrook. It shows you the futility of such aordid matchmaking-trying to marry s girl off in that way-jour own niece, too-it's outrageous!"

Something chught in Lucia's voice. and the tears brimmed over in her brown eyes. Waterworks don't affect me, but the young man sprang toward her engerly.

"Lucila, did you turn me down because you thought I was the Dudley A. Holhrook?"

"Yes," came in gruffled tones from Luella's averted hrad. "Will you reconsider now that you

know I'm just Dudley Holbrook and love you?" Luciis's brown eyes met his eager gaze, and the anger died away in them. Then she flung back her head

and looked at me defiantly. "Yes!" her voice rung out triumphantly.

But, hiers you, I only laughed within myself, for, as I aski in the beginning. I know my own think-hest is a deel beiter than anybody else's think-

'heaty of Geneva.

Beviewing the history of the Red spector of New York's Bureau of an editorial in the American Red Combustibles, has opened, analized, Cross Magazine for July will say in

> marching to the relief of distressed peoples under the banner of the red have been a failure. . cross on a white ground. Almost everywhere human heings exist today the ited Cross is recognized as the insignia of mercy, succor and nentrality.

"Parity due to the work of the United States Sanitary Commission their relief corps. in safeguarding the health and alleviating the suffering of the sick conferences were held in Geneva in 1863 and 1864, at which first fourteen, then twenty-five countries tion of permanent Red Cross socleties throughout the world. Fleld Commission subsequent to the convention of 1864 were the first relief workers to use the red cross sign and flag in netual service. .

Saturday, August 22, 1914, will be reviewed and the Ited Cross Treaty. the liftieth anniversary of the adop- proposing a new rule of internation of the Red Cross Treaty or the tional law, was entered into. The United States was represented by her minister, Mr. George C. Fogg. Cross as a world-wide institution, and by Mr. Charles S. P. Bowles. Commission. According to these gentlemen, the documents and statistics telling of the practical effects "Fifty years have rolled by since of the efforts of the Sanitary Comthe holding of that first internation- mission in preventing and alleviatal convention in Geneva, Switzer- ing suffering during the Civil Wnr land, when the Red Cross Treaty proved of the utmost value to the was adopted. That was on August second Geneva congress, and Mr. 22, 1864. For a half century the Bowles goes so far as to say that humanitarian arms of the civilized but for these visible demonstrations nations of the world have been of the lieneflts of organized relief work this congress probably would

"The resolutions and recommendations may be summarized as follows:

"First-That each government extend its sanction, authority and protection to sanitary commissions and

"Second-That in time of war the privilege of neutrality be extended and wounded during the Civil War, to ambuiances, military hospitals, officials and attaches of the medical services, regulars and volunteers, to nurses and to the Inhabitants in the were represented, out of which theater of war who should receive grew the organization and recogni- and care for the wounded in their houses.

"Third-That the universal insigngents of the United Stales Sanitary nla and flag of persons, officials and vidunteers, who might assist in the care of the wounded in war, and of ambulances and hospitals in all armies he 'a white flag or band with "in this second conference the ac- a red cross." The cross itself was tions of the convention of 1863 were not otherwise described."

For the Children

Has a New Playmate.

@ by American Press Association.

Vinson Walsh McLean, whose features are seen in this picture, the militonaire baby, sou of Mr. and Mrs. Edward B. McLean of Washington and Newport, has recently ocquired a new playmate. This person is the nou of Dr. Shirley Carter of Warrenton, Ve., who is to be the guest of the McLeans for an indefinite period. Both are benithy, happy five-year-olds; but, while the millionaire baby is attended by a nursery governess, two nurses each with a diploma from a training school. a nurse maid or two and two ablebodied detectives, the little Virginian has been tanglet to stand on his own sturdy feet and to ride the bine ribbon animain of the Carter stable with no other bodygnard than one of his fa-

The hoya will spend the summer at Black Point farm, near Newport. Master McLean, if he juberita eli ba may be expected to inherit, will have about \$150,000,000 and be the richest boy in America. His grandfather, the iete Thomas F. Walsh of Colorado, left the youngster about \$100,000,000. From his paternni grandfuther, John R. McLean, he will inherit at least baif as much.

Throwing the Brick. Draw two lines fifteen feet epart.

then divide the boys luto two companies, allowing each player a piece of brick or square wood that can be easily Each player on one side throwa bia brick, trying to come an near as possible to the line on the other side. The one farthest from the line sets up his brick on the line and the one nearest standing on the opposite side pitches at it. If he fails to knock it over he sets up his brick and the other boy pitches at it. if he aucceeds he picks it up, goes back to the line, pitches it again, near the other brick, hops over it and kicks his brick near that of his companion. Then he munt pick up his brick and carry it successively on his head, on each aboulder, on his back, on his breast (walking), in the bend of his knee (hopping), in between his legs (shuffling), each time starting at the line and proceeding to the other brick and knocking it over. Finelty he marks a agenre inclosing the brick and about eighteen nches square, and if he can hop over

this, he is declared a winner. If he fatis in any one of the "stunts" he must wait his turn, but can then begin at the point where he fuiled.

A Homemada Toy.

Did you ever see boys walk on ntilts? It looks like dangerous sport, but it is not after you have a little practice. in fact, you can take rapid strides with them, as do the shepherds in the desert of Laudes, in the south of France. They enn run, jump, hop and dance on them with ease and security. When they stand on the stilts they can watch their flock, their feet being protected from the water during the winter and the hot sands in summer. in addition to the stilts, they use a long staff. which they carry in their hands. This forms the third leg when they require

To make stilts procure two poles about six or seven feet long and nail on a strap of lenther about one-third from the bottom of each. Into these the feet are placed, the poles being kept in a proper position by the handa and moved forward by the action of the legs. Some American boys unit on wooden supports for the feet to rest upon instead of the lenther straps.

Growing Things.

I am a child of the country, and I love not the cities grim! heart is akin to the wild things and the woodlands vast and dim Where the winds and the brook make mu sic and, faint from his cool retreat, Comes the voice of the thrush at even in a madrigat wild and sweet.

Oh, I am a child of the country, and the orchard knows my tread When the boughs shine white with blos-soma and the buds lie pink and red! And hand in hand in the moonlight go my soul's beloved and I, And we need no words to question, no words to make reply.

Oh, I am a child of the country, and I love

the fields at morn,
Where the air comes fresh and fragrant and the joy of the day is born, Loud carols the cheerful robin to the linnet over the way, And the growing things and the birds and

I welcome the dawn of day.

-St Nicholas.

Some people boast of having descended from their ancestors, while others are proud of having risen above

SEXUAL KNOWLEDGE

ILLUSTRATED 320 PAGES

Tells all about sex matters; what young men and women, young wives and husbands and all others need to know about the sacred laws that govern the sex forces. Plain truths of ser life in relation to happiness in marriage. 'Secrets' of manhood and womanhood sexual abuses, social evil, diseases, etc.

The intest, most advanced and prehensive work that has ever been ssued on aexual hygiene. I'riceless in struction for those who are ready for the

true inner teaching.
This book tells nurses, teachers, doctors, lawyers preachers, social workers, Sunday School teachers and all others, young and old, what all need to know about sex matters. By Winfield Scott Hail, Ph. D., M. D. (Lelpzig).

MLAMI PUBLISHING CO. Dayton, Ohio

SIX DOORS

FOR ASPIRING YOUNG PEOPLE

1st Door—Berea's Vocational Schools

Training that adds to your money-earning power, combined with general education. FOR YOUNG MEN-Agriculture, Carpentry, Printing, Commar-

FOR YOUNG LADIES-tlome Science, Dressmaking, Cooking

Nursing, Stenography and typewriting.

2nd Door-Berea's Foundation School

General Education for those not far advanced, combined with some vocational training. No matter what your present advancement, we can put you with others like yourself and give chance for most rapid progress

3rd Door-Berea's General Academy Course

For those who are not expecting to teach and who are not going thru Coilege, but desire more general education. This is just the thing for those preparing for med cal studies or other professions without a college course. It also gives the best general education for those who wish a good start in study and expect to carry it on py

4th Door-Berea's Normal School

This gives the very best training for those who expect to teach. Courses are so arranged that young people can teach through the summer and fall and attend school through the winter and spring, thus earning money to keepright on in their course of study. Read Dinsmora's great book, "How to Teach a District School."

5th Door—Berea's Preparatory Academy Course

This is the straight road to College-best training in Mathematics, Sciences, Languages, History and all preparatory subjects. The Academy is now Berea's largest department.

6th Door—Berea College

This is the crown of the whole Institution, and provides standard courses in all advanced subjects.

Ouestions Answered

BEREA, FRIEND OF WORKING STUDENTS. Berea College with its affillated achools, is not a money-making lustitution. It requires certain fees, but it expends many thousands of dollars each year for the benefit of its students, giving highest advantages at lowest cost, and arranging as far as possible for students to earn and save in every way.

OUR SCHOOL IS LIKE A FAMILY, with careful regulations to protect the character and reputation of the young people. Our students come from the best families and are earnest to do well and improve. For any who may be sick the College provides doctor and nurse without extra

All except those with parents in Berea live in College buildings, and many assist in work of boarding hall, farm and shops, receiving valuable training and getting pay according to the value of their labor. Except in winter it is expected that all will have a chance to earn a part of their expenses. Write to the Secretary before coming to secure employment.

PERSONAL EXPENSES for clothing, laundry, postage, books, etc., vary with different people. Berea favors plain clothing. Our climate is the best, but as atudents must attend classes regardless of the weather, warm wraps and underclothing, umbrellas and overshoes are necessary. THE CO-OPERATIVE STORE furnishes books, toilet articles, work uniforms, umbrellas and other necessary articles at cost

LIVING EXPENSES are really below cost. The College asks no rent for the fine buildings in which stu lents live, charging only enough room rent to pay for cleaning, repairs, fuel, lights, and washing of bedding and towels. For table board, without coffee or extras, \$1.35 a week, in the fall, and \$1.50 in winter for furnished room, with fuel, lights, washing of bedding, 40 to 60 cents for each person.

SCHOOL FEES are two. First a "DOLLAR DEPOSIT," as guarantee for return of room key, library books, etc. This is paid but once, and is returned when the student departs.

an "INCIDENTAL FEE" to help on expenses for care of school buildings, hospital, library, etc. (Students pay nothing for tuition or services of teachers-all our instruction is a free gift). The Incidental Fee for most students is \$5.00 a term; in Academy and Normal \$6.00 and \$7.00 in Collegiate course.

PAYMENT MUST BE IN ADVANCE, incidental fee and room rent by the term, board by the half term. Installments are as follows:

FALL TERM VOCATIONAL AND FOUNDATION SCHOOLS ACADEMY Incidental Fee..... \$ 5.00 \$ 6,00 \$ 7.00 Room 5.60 7.00 7.00 Board 7 weeks 9.45 9.45 9.45 Amount due Sept. 16, 1914... \$20.05 \$22.45 \$23.45 Board 7 weeks, due Nov. 4, 1914 9.45 9.45 9.45 Total for term...... \$29.50 \$31.90 232.90 WINTER TERM Incidental Fee \$ 5.00 \$ 6.00 \$ 7.00 Room 7.20 7.20 Board 6 weeks 9.00 9.00 9.90 Amount due Jan. 6, 1915..... \$20.00 \$22.20 \$23.20 Board 6 weeks due Feb. 17, 1915 9.00 9.00 Total for term \$29.00 \$31.20 \$32.20

*This does not include the dollar deposit aor money for books or laundry.

Total

Spring

Special Expenses—Business. Winter

Stenography and Typewriting.... \$14.00 \$12.00 \$10.00 \$34.00 12.00 10.00 36.00 14.00 Bookkeeping (brief course) 18.00 5.00 Bookkeeping (regular course) 7.00 6.00 Business course studies for students in other departments: Stenography 10.50 27.00 Typewriting, with one hour's use of Instrument 7.00 18.00 6.00 Com. Law, Com. Geog., Com. Arith., or Penmanship, each... 2.10 1.80

Any abie-bodied young man or young woman can get an education at Berea if there is the will to do so.

In no case will special Business Fees exceed \$15.00 per term.

It is a greet advantage to continue during winter and spring and hava a full year of continuous study. Meny young people waste time in the public schools going over and over the same things, when they might be improving much faster by coming to Berea and starting in on new studies with some of the best young men and women from other counties and

Applicants must bring or send a testimonial showing that they are above 15 years old, in good health, and of good character. This may be signed by some former Berea student or some reliable teacher or neighbor. The use of tobacco is strictly forbidden,

being scattered about. We have selected two brownies and two elves to act as judges. All the brownies are to stay on one side of the field and the cives "'Each brownle is to throw one daisy at a time just as fast as he can to the side where the cives are, and each elf is to do the same thing. They must

flowers they carried.

throw the flowers as quickly as they ean, but only one at a time." 'Hurrah,' said the brownies, who had listened enrefully to the directions; 'we will do as you snyl Let's begin!'

So the judges were chosen, and the battle of flowers began. The ones who were allowed to look were greatly impressed with the sight before them, for it looked very lovely to see the bright yellow end white flowers being thrown about, and the brownies and eives had lots of fun.

"They tried to be just as quick as they could, but it did seem to take them a long time, especially with the rule of only throwing one flower at a time. But at just they almost reached the last of their flowers. Then the excitement that followed! The audience could herdly wait to

which side would win, as they seemed so very even. 'flut soon only three buttercups remained on the side of the brownies and four on the aids of the eives. And, sure enough, the brownles won. For s prise they were given a most beautiful bunch of buttercups and dalales and also a great big basketful of the most delicious wild strawberries."
